ADGI Design Week Pt.1
November 2025

Pinterest on Foot is an e-zine of photos and screenshots I took of inspiring things, made in an effort to clear up my phone gallery (currently at 33,000 photos too many).

To use the zine, treat it as a prompt generator. Jump to a random page. Find something you like about it. Create something based on your findings. Make a brief. Et cetera.

AN ELEPHANT NEVER FORGETS

"I used to get bullied by being called Elephant a lot in elementary, and I was chubby back then. But now, I want to show the world that I'm proud of who I am, that I'm a strong woman like a fearless elephant, ready to fight!" -Ari

The Weight of
Two Decades
With 20 years under our belt, the body of work we've amassed is massive. Symbols, in particular, make up
a large chunk of our consciousness. A visual element integral to our practice. Each and every logo we've
created carries the weight of a unique narrative. A unique face. A unique identity. This small, bold,
a complete compilation of all the logos we've designed over the past two decades, carries the combined
weight of every distinct story we have carefully crafted. Each one is a small testament to the power
of symbols. Together, they form not just a record of our work, but a portrait of how we've evolved.

In response to capitalism and the rapid modernization of the Philippines, individuals who share similar livelihood opportunities (farming coffee, producing vegetables, etc.) in an ili (village/barrio) still help one another as a village.
From there, a "cooperative" within their vicinity is born. For example, one of our beneficiary in Yuma is ACOGCMAC.
ACOGCMAC consist of Ibaloi and Kankanaey coffee farmers who live in one sitio called, Barangay Caliking.
To keep it short, "cooperatives" and other grass-roots organizations are the byproduct of alluyon.

For as long as I can remember, I've struggled to hold onto memories. The small details.. the fleeting moments.. have always slipped through the cracks. I began to take pictures in 5th grade, hoping it might help me hold on losing.
ARTIST
NADINE HANISYA
Over time, I've come to understand that memory doesn't always work the way we want it to. As human beings, we can't retain every detail, and maybe we're not meant to. What photography teaches is that remembering doesn't have to be about precision. Sometimes, it's enough to capture a feeling—the atmosphere, the light, the emotion. These fragments can be just as powerful, sometimes even more, than

BIKE TO WIN

Our works grow from a way of thinking that is far from one way—wild, free, and open to endless possibilities. For us, creativity is a shared space without limits, where everyone brings their own perspective, story, and imagination to the table. The mix of materials and scales reflects the many ways we see, feel, and make things together. It is a celebration of a process

that keeps moving, growing, and connecting us.

It is the spirit of making things happen by doing; learning from each other; working on what we care about, and experimenting with freedom. That is how ideas take root, how collaboration comes alive, and how creativity keeps

Strategies
: The design strategy focuses on translating the engineered logic of railway systems into typographic form. The process begins with studying the proportions of semi-extended Grotesks, since when people look at a sign from the side, the letters visually compress due to perspective. Starting with a semi-extended typeface allows that natural compression to appear more balanced and readable from different angles. These proportions are then adapted to express the linear flow of train tracks.
Structural consistency is emphasized to maintain strength across all weights, while subtle curvature ensures visual smoothness and readability. Optical refinements are applied to achieve balance at various scales, allowing Lesat to perform seamlessly in both print and digital contexts. By combining technical precision with visual rhythm, the strategy ensures that Lesat reflects the clarity, reliability, and movement of modern railway design.

A Geometric Sans That Blooms
Brand x type
Brand x Type exhibition highlights brands and company that have demonstrated a profound commitment to elevating the graphic design practice.
They haven't just adapted; they've actively advanced the field by investing in a core element of visual communication: typography.
In an era defined by constant visual noise, these selected companies recognize that a unique typeface is the signature of their identity, a critical piece of intellectual property.
By collaborating with leading type foundries and design studios across Indonesia & Southeast Asia, they have moved beyond standard fonts to commission custom typefaces that are meticulously crafted to embody their ethos, voice, and values.

At first glance, Orchard carries the crisp precision of a geometric sans much like its modernist forebear Futura. But like the road it's named after, Orchard resists being boxed in.

Subtle details reveal a more humanist voice: open apertures, vertical stroke endings that bring suprising personality to otherwise cold geometry.

Designed for Evergreen Orchard – a reimagining of Singapore

The result is a typeface that feels contemporary yet approachable, refined yet full of life. Across its two-width axis, Orchard transitions gracefully from compact efficiency to generous expressiveness. It's in in interplay between control and freedom that Orchid finds its charm: an urban geometry in conversation with the human touch.

Instead of "neutrality", Orchard chooses balance – equally at home in fa variety of settings. Like the street that inspired it, Orchard is ever changing, yet always recognisable. Evergreen.

Alluyon is a Kankana-ey term, which means putting together a concerted effort as a community to help accomplish tasks related to farming, such as planting or harvesting crops.
Now, the term translates to our everyday life in Cordillera... a value that transcends life against the constantly changing world. It's an Indigenous value that still withstands colonial powers and trends of modernity.

Pemintan ini membekali mahasiswa dalam belajar membaca dunia—mengenali perubahan, menangkap cerita kota, lalu mengubahnya menjadi ide komunikasi yang bermakna. Dengan tipografi, ilustrasi, fotografi, dan elemen grafis lainnya, mereka merancang identitas, kampanye, dan solusi visual yang hidup di media cetak maupun digital. Setiap proses melatih kepekaan, kreativitas, dan kemampuan berpikir kritis, membentuk mereka menjadi kreator muda yang siap menjawab tantangan zaman.

INDONESIA'S OWN
JOIE DE VIVRE
Let's face it:
the existence of kerupuk in Indonesia is
ubiquitous. You will find them lingering around
in nearly every warung makan, housed in
colourful tin cans. The moment you take a
bite, you will be greeted with the salty, umami-
infested crunchiness and the onomatopoeic
sounds that follow – or maybe you may want
to hold it inside your mouth and let it melt.
Indonesian food historian Fadly
Rahman theorises the origin of kerupuk
dates back to the 9th century Java. The
Batu Pura inscription mentions krupuk
rambak, a variant of kerupuk made from
cow or buffalo skin known as kerupuk
kulit today. The other says kerupuk
udang, or prawn crackers, first appeared
in the 16th-century Malay peninsula.
Leftover, crushed prawn heads from a
feast were used to make the crackers. (1)
It's a stretch to pinpoint who exactly
came up with the idea of kerupuk as we can
find many types of kerupuk across South East
Asia. For instance, Terengganu is famous for
its keropok lekor, while kropek is often eaten
as an appetiser with chilli dipping sauce
and vinegar in the Philippines. However,
Indonesia may have the most extensively
known variety of kerupuk.

ONESIA
MEMAKNAI PROFESI MELALUI WIRAUSAHA KOLABORATIF

VER
SUS

DGI percaya bahwa sejarah desain grafis Indonesia kaya akan peristiwa-peristiwa pemberdayaan profesi yang dibangun berdasarkan kerjasama erat antar pelaku-pelaku yang bersifat kekeluargaan. Diawali dari angkatan 1970, pelaku desain grafis saat itu tidak banyak, namun memiliki semangat berkegiatan, berkumpul, dan berserikat melampaui batasan dan tantangan yang nyata. Tiap dekade dan angkatan-angkatan baru yang muncul meneruskan semangat ini hingga sekarang. DGI menemukan sikap dan semangat yang sama di tiap kegiatan, kepercayaan diri atas kebanggaan yang hadir di jiwa pelaku-pelaku desain grafis Indonesia. Namun, percaya diri dan semangat tidak akan timbul dengan sendirinya—sikap-sikap tersebut harus dipicu oleh pemahaman antar desainer grafis itu sendiri, mengenai profesi, lingkungan budaya, dan masyarakat.

DGI didirikan atas keinginan untuk berbagi catatan beragam peristiwa desain grafis yang patut untuk dibanggakan, pantas menjadi lebih dari catatan sejarah, namun diolah secara pribadi oleh pelaku desain grafis menjadi aka—dan akar ini hanya baru bisa terwujud bila tali persaudaraan, rasa kekeluargaan hadir, sehingga ia secara otomatis mengikat kepentingan-kepentingan peribadi itu menjadi satu kepentingan. Berbagai peristiwa penting, seperti penyelenggaraan pameran bers ama tingkat nasional, beragam acara yang memupuk tali persaudaraan, acara edukatif yang membimbing pemahaman identitas desain grafis Indonesia. Ini membuktikan bahwa profesi kita itu memiliki kebanggaan yang patut menjadi akar pribadi desainer grafis Indonesia.

Booth DGI di acara FGD Expo 2013 kemarin, merupakan wujud visual dari maksud ulasan di atas. Video desainer-desainer yang menyatakan dengan bangga identitasnya diekspos di atas slogan DGI: "Membimbing pemahaman di antara desainer grafis Indonesia dan persimpangannya dalam seni, desain, kebudayaan, dan masyarakat." Instalasi sederhana ini semoga menjadi langkah pertama yang perlu dilakukan pelaku desain grafis Indonesia untuk jalan menuju pemahaman profesi yang ideal, yang mantap, yang percaya diri, berakar, berdaya, yaitu dimulai dari bangga, lantang, semangat menyatakan:

"SAYA SEORANG DESAINER GRAFIS."

GRAFIS'25 (1) / SINESTESIA BY PARAGONCORP (2)
(1) GRAFIS EXHIBITION
15 - 23 NOVEMBER 2025
GALERI CIPTA II & 2
Continuing the tradition of GRAFIS'96, this flagship exhibition celebrates the finest works of Indonesian graphic designers, showcasing the possibilities of design in various forms and media. This year, 64 exhibitors are an exclusive mix of individual, studio, cross-discipline practice, and collective designers from ADGI accreditation program.
(2) SINESTESIA BY PARAGONCORP
15 - 23 NOVEMBER 2025
SELASAR LANTAI 3
Sinestesia is an experiential exhibition by ParagonCorp and Grivaudan that explores the intersection of sight and scent. Centering on the visual as a bridge to the intangible, it translates fragrance into form, color, and movement. Offering a sensory exploration that also serves as a foundation for Paragon's future innovations in scent and multisensory design.

A decade is a curious milestone for a type foundry. Too young to be considered classic, yet far beyond a fleeting moment. Over these ten years, we've see ourselves as confectioners of all things type design, continually hungry for new flavors and experiences. We hope visiting our foundry feels like stepping into a beloved patisserie: vibrant, nostalgic, and full of small, delightful discoveries. From timeless staples to contemporary delights, each typeface is crafted as a sweet treat meant to be enjoyed

03. BITS & BOBS

Bits & Bobs is an Indonesian souvenir shop. Using illustration, bits & bobs creates daily items that combines local culture and wit. The illustration takes on the theme of street food; such as warteg, resto padang, pecel lele, and jajanan pasar. Using play of words, items with the theme of instant noodle, herbal products and sachet drinks are also made. The product ranges from postcard, keychain, fridge magnet, sticker, bag charm, pouch, to tote bag. We aim to be the top-of-mind brand when it comes to witty
Indonesian souvenir.

We are currently available at Sarinah, Alun Alun Indonesia, Kemchicks PP, Grammars, MACAN shop, Matalokal and dia.lo.gue.

02. AIYARI STUDIO
A decade is a curious milestone for a type foundry. Too young to be considered classic, yet far beyond a fleeting moment. Over these ten years, we've see ourselves as confectioners of all things type design, continually hungry for new flavors and experiences. We hope visiting our foundry feels like stepping into a beloved patisserie: vibrant, nostalgic, and full of small, delightful discoveries. From timeless staples to contemporary delights, each typeface is crafted as a sweet treat meant to be enjoyed

4. PUNOPALS
Punopals is a character-based IP created by Ardi Kusuma and developed by Pamorbon, blending the expressive style of rubber hose cartoons with the iconic Punakawan characters from Indonesian wayang. Designed to bridge the gap between pop culture and local heritage, Punopals expresses this mission through a variety of art collectibles and merchandise such as art toys, stickers, posters, t-shirts, tote bags, and more. While also developing the story and world of Punopals, following the

14. FREAKIE X LAB
Freakie X Lab is a speculative archival reconstruction that traces the remnants of a concealed laboratory and its undocumented biogenetic experiments. Through the book "Specimen 10: Forbidden Biogenetic Archive", visitors encounter a curated collection of visual and textual records that document the early emergence of anomalous specimens.
This work acts as a window into an erased field of research—an attempt to understand what remains of experiments that were never meant to happen.

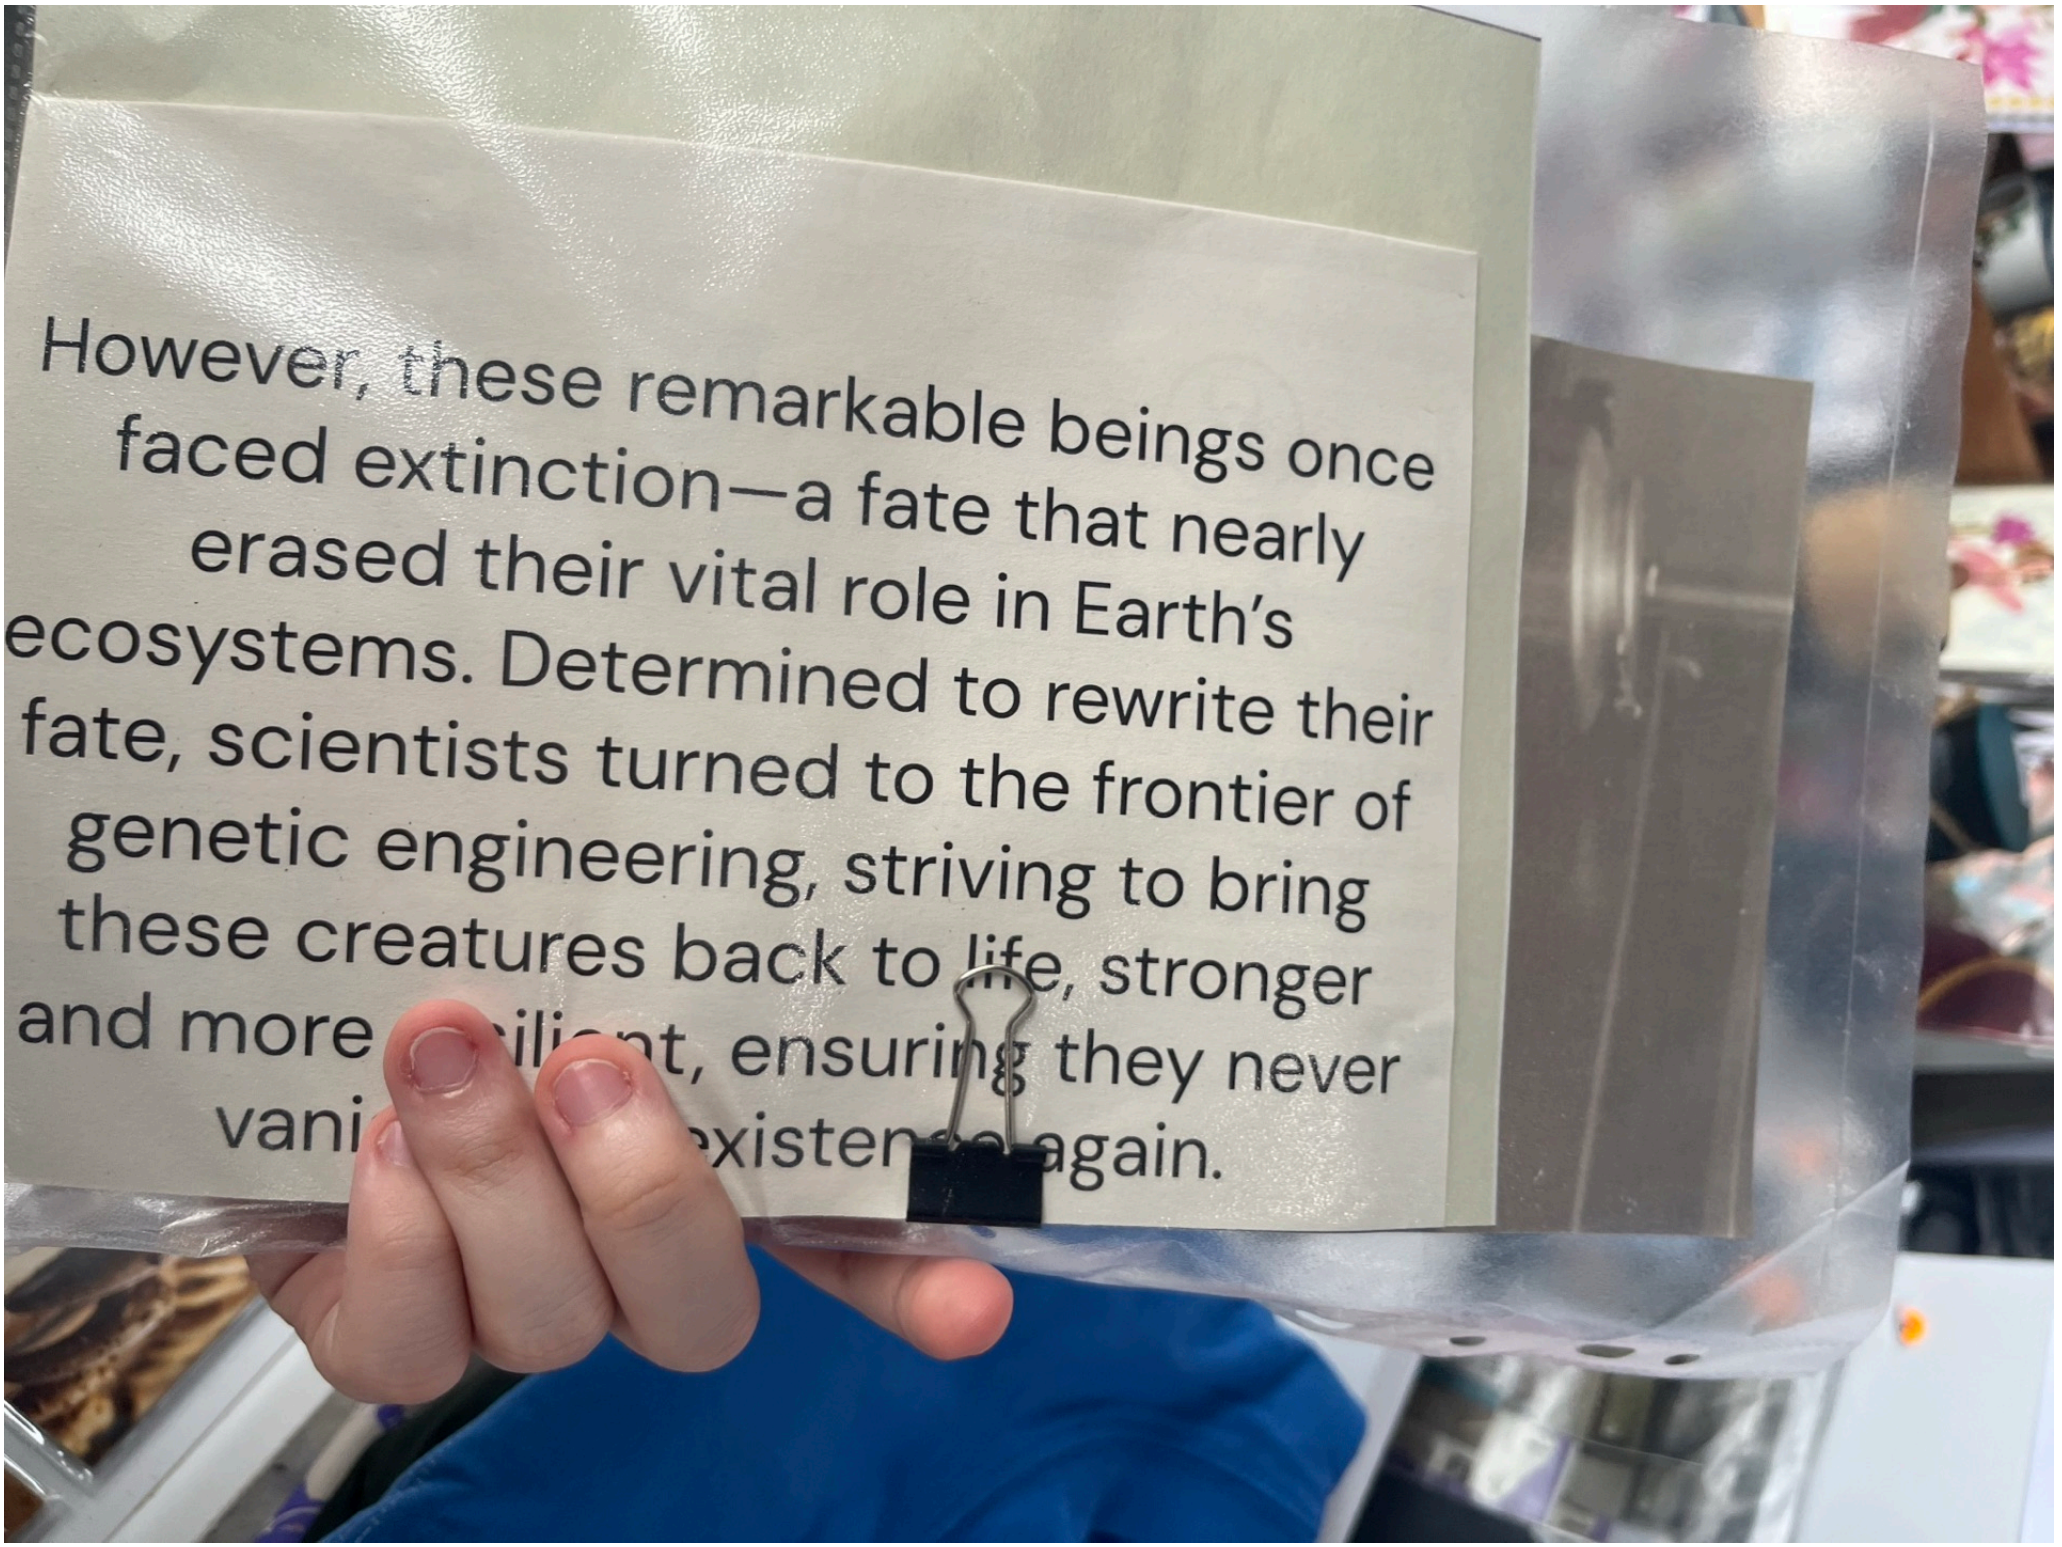
Archiving
This document, penned by the enigmatic Professors M. Dave Beck and Niota Yuki in the 1990s, reveals a chilling truth. These pioneers of the occult, founders of the infamous FreakieXLab and their controversial genetic mutation experiments, predicted the end of days. The contents of this file are far more shocking than we could have imagined...



However, these remarkable beings once faced extinction—a fate that nearly erased their vital role in Earth's ecosystems. Determined to rewrite their fate, scientists turned to the frontier of genetic engineering, striving to bring these creatures back to life, stronger and more
t, ensuring they never
again.
